## Join the 1<sup>st</sup> UNIFLEX Congress 23. / 24. / 25.09.2010 in Karben The perfect service-workshop

What does an ideal service workshop for hydraulic hoses look like? To discuss this question in detail and particularly practice-oriented, we are inviting interested industry participants to join us at the first UNIFLEX congress.

### The program

An all-day, both theoretical and hands-on seminar, addressing all who are involved with quality management, as safety inspectors, constructors, and supervisors, will be held on the following dates: Thursday, 23rd of September Friday 24th of September and a third course, dedicated to our distributors only, will take place on Saturday, Sept. 25th 2010.

We will show you that "quality sells" and how important it is to have a constant service. We will have different guest speakers from the hydraulic sector, who will impart hy-

draulic knowledge. To enhance the congress we will have the part "Praxis in the service workshop", where the participant produce a hydraulic hose according to the industrial norms.

During the UNIFLEX factory tours and in the evenings there will be room for exchange of experiences and business talk.

### Your registration:

by e-mail info@uniflex.de  
by fax +49 (0) 6039 9171 11

Please register as soon as possible and mention your desired date of participation, as the number of participants is limited

### Contributors

We had the chance to invite top-class contributors' e.g.:

**Thilo Ittershagen**, be known as the author of the standard work "Schlauchleitungen und Verschraubungen für die Hydraulik" (hydraulic hose assembly and fittings)

### Content of the seminar

We will demonstrate to the participants the basics of a modern service workshop for hydraulic hoses; ergonomic and economic principles as well as all necessary regulations and standards:

- Part A: Basics of hose assembly
  - ▶ Terms and clarification
  - ▶ Regulations, standards, directives of industrial injuries corporations
  - ▶ Hydraulic hose, hose assembly
  - ▶ Hoses, fittings, hose assembling
  - ▶ Linking of hoses (plug or crimp connection, screw fitting)
  - ▶ Internal hose cleaning, cleanliness of hoses
- Part B: Practice in the service workshop
  - ▶ Produce a safe hydraulic hose which adheres to industry standards and norms
  - ▶ Show the work-flow by using the example of our pilot workshop
  - ▶ Economical machine layout
  - ▶ Newest techniques and trends

### The attendance fee

This fee of 65 EUR per person includes:

- ▶ Training material
- ▶ USB Stick / CD with presentation documents
- ▶ Directives of industrial injuries corporations (BGR 237)
- ▶ Abridged version of various technical committees
- ▶ Technical documentation
- ▶ Catalogues
- ▶ Beverage and catering during the course
- ▶ Transportation between the different venues
- ▶ Certificate of participation
